ABSTRACT

This study aims to determine whether there is influence of local revenue (PAD), the general allocation fund (DAU) and special allocation fund (DAK) for budget allocations in the areas measured by indirect expenditures and direct spending. The sample of population in this study was 38 district in East Java in the year 2010 to 2012. This study uses secondary data in the form of the Budget Statement of Revenue and Expenditure (APBD) District. The sampling method using a census method by taking the entire population. Research tool used is multiple linear regression. The results of this study indicate that the PAD, DAU, DAK has a positive and significant impact on indirect expenditure, if seen further the level of dominance of indirect spending is more dominant
