Dear Professor Almilia
 Thank you for the thorough revisions that you have made to your manuscript. You have a much stronger paper now.
 Further to our earlier correspondence, your paper has been pencilled in to appear during late 2013, as Paper 3, in issue 1 of IJESB Volume 20.
 Keep in mind that this is tentative.
 The next step is that you will receive proofs of your article, but only after the issue is complete, so I am currently waiting for referee comments about other papers.
 Best wishes
 Leo Dana

PROOFS OF PAPER FOR CHECKING

Title: Comparative managerial practice and export potential of small medium enterprises in Indonesia

Dear Author

I attach the proofs of your paper for inclusion in the International Journal of Entrepreneurship and Small Business to be published by Inderscience Publishers.

Please check the paper and confirm acceptance or let me have any amendments/ changes within 2 weeks of the date of this e-mail.

Please ensure that you send ALL amendments with your reply as it is unlikely that any further changes will be possible. You will be sent a final revised version to approve after your amendments have been incorporated.

With regard to keywords, please check ALL the essential words/terms from the title and abstract are included and in an optimum format, which is ideally of 1-3 words; if more than 1 word, the words should be a phrase, not a description. Therefore, please check papers for:

- a. do the words/phrases in the title appear in the keywords – NO – then please add
- b. are there enough keywords in the field? (i.e. if there is a long abstract and only 2-3 keywords, then probably not – please expand)
- c. are there long phrases with 'of' and 'and' in them? (YES – then please re-format into key phrases).

Where applicable, the title of the journal should also appear in the keywords (e.g. for International Journal of Nanotechnology, 'nanotechnology' should appear in the keywords; for International Journal of Environment and Pollution, 'environmental pollution' would be the phrase to use. This is obviously more applicable to some journals rather than others.

Detailed requirements for papers can be found on the Inderscience website www.inderscience.com under Notes for Authors.

To ensure the publication schedule is maintained and in the event of you not replying within this timescale, contact will be made with the Editor of the issue and it is possible that the paper will be held back from publication.

It is the policy of Inderscience Publishers not to publish any papers unless final approval of the edited copy has been obtained from the author.

May we ask you to indicate your amendments using one of the following:

- list the corrections/amendments in an MS Word file (see attached)
- list in an e-mail* and indicate the page number, paragraph or line one by one

*(no hard copy required if you use e-mail to reply)

- copy a portion of the text that needs correcting so we can locate them making the implementation of corrections more accurate
- make annotations on the PDF
- fax to (632) 4217186
- send the hard copy by post indicating clearly the amendments required.
- use the attached Word file and complete line by line

If any figures appear in colour, please note that they will only appear in colour in the online version but in the printed version they will be in black and white.

If the quality of the colour figure supplied is not suitable to be produced in colour, it will only be shown in black and white in the online version. However, if colour is essential to the figure please send a better quality colour image with your proof reply

Where there is more than one author, please indicate who is the corresponding author if not already shown and kindly respond to any queries in the paper.

Many thanks
Jeng Nepomuceno-Silo
